Subject	Recall Off-Lease Acknowledgment Form						

As stated in the Stop Sale/Safety Recall: Acura 2005-2016 Multi-Model Driver's Airbag Inflator Dealer Q&A, dealers can ground off lease vehicles and sell it back to the client. The off-lease vehicle can only be sold back to the originating lessee with a signed acknowledgment stating the vehicle is under the recall. The Acknowledgement form attached [here](#) must be signed by both the client and the dealer. As a reminder, the vehicles impacted by the recall cannot be sold to a different client.

We appreciate your continued support of Acura Financial Services®. We will keep you informed of any further developments regarding the recall and stop-sale.
