<b>Last modified</b>	08-Feb-2016 00:00:00
<b>Symptom</b>	207000 Entertainment Systems

---

**Content****Issue:**

The customer may report that there is a vibration, buzz or other abnormal noise from a door speaker.

**Cause:**

Under investigation.

**Action:**

On confirmation of the problem:

- Ensure that all door trims and fixings are secure.
- Check that the speaker is mounted securely and properly connected.
- Make sure that no other parts are loose within the door.

If the problem persists:

- Raise an EPQR explaining the issue and work carried out.
- Await a response before replacing any parts.
