Glossary

EpicVin™ reports provide vehicle information from the auto auctions' database and may include the vehicle's photographs and vehicle details that were available to the public in the auto auctions' websites when this vehicle was on sale there. Auction Records Report and the auto auction records in the Vehicle History Report are available only in case if this vehicle has ever been on sale at auto auctions since June, 2007 to present time, but still not for all those vehicles. The information on some vehicles may be unavailable. Vehicle information from the EpicVin™ Auto Auction Records Report and from the auto auction records in the EpicVin™ Vehicle History Report is provided "as is" from the auto auctions database. EpicVin™ does not guarantee or warranty that the Auto Auction Records Report and auto auction records will be available on a specific vehicle, and does not guarantee that the information from the Auto Auction Records Report and Vehicle History Report is accurate, comprehensive, verified or complete, and shall not assume or accept any liability (whether in negligence or otherwise) for the accuracy or completeness of such information or for any reliance placed by any person on the information. EpicVin™ does not guarantee that the vehicle has not been on sale at an auto auction if there are no auto auction records in the report or no Auto Auction Records Reports available for the vehicle. EpicVin™ also does not guarantee the availability of the vehicle photographs in the report. Nor shall EpicVin™ be under any obligation to advise any person of any error in information provided. EpicVin™ shall not be liable for any damages (including, without limitation, damages for loss of profits, business or other consequential loss) which may arise from any use of, or reliance upon, or inability to access, the information from the EpicVin™ Auto Auction Records Report and the EpicVin™ Vehicle History Report. NMVTIS Consumer Access Product Disclaimer

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and [brand](#) history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while [some states](#) report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is **NOT** a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The [Approved NMVTIS Data Providers](#) (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from [participating](#) state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit vehiclehistory.bja.ojp.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.
